NRW Aid Package

Measures already in place

NATIONWIDE

The federal government has presented a *shield for employees and companies* to provide companies with enough liquidity to make it out of the crisis.

1

 Companies can receive short-time allowance under simplified conditions.

2

 The liquidity of companies will be ensured by new, unlimited measures. The current programmes for liquidity aid will be expanded and made available to more companies, such as the RLC and ERP credits.

3

The federal government is committed to a coordinated European approach and welcomes, to name one example, the European Commission's idea for a "Corona Response Initiative" with a volume of 25 billion euros.

NRW

The financial administration of North Rhine-Westphalia and the state's business development bank have taken extensive, immediate, quick and unbureaucratic measures to provide aid that many North Rhine-Westphalian companies are already using:

4

 On request, the financial administration of NRW is helping affected companies with tax deferments and the decrease of prepayments, and is using its discretionary powers to benefit taxpayers as much as possible.

• NRW.Bank has made the conditions of its universal loan more attractive and now accepts 80% of the risk (compared to 50% before) starting with the first euro.

All instruments can be used now and remain available

Fiscal measures

NATIONWIDE

We have coordinated important immediate measures between the federal and state government (e.g. by means of disaster decree) that apply from now until 31/12/2020:

1

• **Zero-interest deferment** of owed or upcoming taxes (income/corporate/VAT)

2

 Reduction of tax prepayments for income/corporate tax and (via equivalent state decree) trade tax (Belated reduction is possible pending reasonable justification)

• Suspension of enforcement measures incl. waiving of penalty fees

As of right now, in NRW we are providing a heavily simplified application form for this

NRW

We are going beyond this in North Rhine-Westphalia and are fulfilling companies' urgent needs:

4

 We are reducing the special prepayments for long-term extensions for VAT to zero for companies affected by the crisis.

- We are providing the companies with more than 4 billion EUR in funds immediately, upon request.
- We are thus achieving billions in direct liquidity reinforcement for large sectors of the North Rhine-Westphalian economy.

Budgeting measures in North Rhine-Westphalia

SUPPLEMENTAL BUDGET 2020

- Establishing special assets to finance all necessary payouts and overcome the tax reduction measures relating to the coronavirus crisis.
- Special **credit authorisation** in the state budget of up to

25 bil. EUR

• This equates to about 3.5% of the total annual economic output in North Rhine-Westphalia and about 30% of the budget volume planned for 2020.

We will implement this as quickly as possible and convene a special session of the Landtag.

BONDS

1

 Increasing the threshold of state bonds from 900 million EUR to 5 billion EUR.

2

 Increasing the warranty bond and return bond threshold for the Bürgschaftsbank NRW from 100 million EUR to 1 billion EUR and doubling the upper bond limit to 2.5 million EUR.

3

• Increasing the **bailment rate from 80% to 90%** once the EU Commission authorises this. (We are asking the EU Commission to enact the *Temporary Framework* required for this as quickly as possible.)

Quick decisions:

State bonds: Processing within 1 week
Bonds from the Bürgschaftsbank: Express bonds up to
250,000 EUR within 3 days, up to 500,000 EUR
daily payout consultations, starting at 500,000 EUR
weekly payout consultations

NRW Aid Package

Help for mid-sized and small businesses, freelancers, entrepreneurs and creative artists

NATIONWIDE

The federal government has announced a considerable grant programme specially developed for small business owners and solo freelancers in the coming weeks.

NRW

Considering special circumstances in North Rhine-Westphalia, we will closely examine the federal programme and **supplement it** where necessary:

- The state of North Rhine-Westphalia pledges to supplement the federal programme with a **state programme** wherever necessitated by circumstances in North Rhine-Westphalia specifically and required in the interest of affected small business owners, solo freelancers and creative artists.
- We wish to support the emerging entrepreneurial scene in NRW, and provide a financing offer from **NRW.Bank** to private investors who give money to start-ups ("matching fund").
- We are working very hard on **extending the NRW entrepreneur stipend** so that business ideas are not lost.
- The "Mittelstand innovativ" programme is being revised and optimised with the digitisation coupons.

Funds from the special assets are available for this.
